EDUCATION

University of Illinois Urbana–Champaign

Expected May 2028

B.S. in Computer Science, Minor in Business | GPA: 3.90/4.00 | Dean's List

Champaign, IL

- **Coursework:** Data Structures & Algorithms (C++), Database Systems (SQL, Neo4j, MongoDB), Applied ML, Algorithms & Models of Computation, System Programming, Computer Architecture, Linear Algebra

EXPERIENCE

Synchrony Financial

Champaign, IL

Software Engineering Intern, Emerging Technology Center

Jan 2026 - Present

- Built an **MCP server** with **136 passing tests at 85% coverage** enabling an LLM to interpret **25+** economic and SEO data fields and generate plain-language insights for non-technical business users.
- Surfaced trends from large datasets by building interactive **Sigma** dashboards over **Snowflake** Marketplace data for the Business Solutions team.
- Developed features and reduced technical debt in **SyPI**, the Swift/UIKit in-app card-management plugin embedded in partner apps (**Amazon, Dick's Sporting Goods**) serving **70M+ active accounts**.
- Built a UICatalog test harness for the SyPI plugin to streamline QA across multiple partner configurations.

GTMSHift (CUBE Consulting)

Champaign, IL

Technical Lead & Solutions Architect

Jan 2026 - Present

- Led a **7-person team** delivering a custom CRM and member-intelligence dashboard that unifies enrichment, lead scoring, and outreach in a single interface.
- Built a contact-enrichment pipeline (**Apollo AI**) and a scoring algorithm to surface high-priority contacts; automated APIs, triggers, and messaging with **Make** on a **Supabase/PostgreSQL** backend.
- Architected an ICP-scoring member-intelligence system (**FastAPI**, Google Auth, **Supabase**), reviewing PRs, building API endpoints, and driving on-time delivery.

Meavana

Remote

Software Engineering Intern

May 2025 - Aug 2025

- Served **20,000+ monthly active users** by building productivity tools with **React** and **Node.js** over a 12-week internship.
- Boosted outreach **45%** by developing scrapers that retrieved contact info from **200+** UIUC student organizations.

PROJECTS

Jamtown (CUBE Consulting Client) | Python, HuggingFace, Gemini API, Supabase

- Built a **RAG** system over a **Supabase** vector store, improving artist-matching retrieval across **100+ artists**.
- Engineered a semantic-search embedding pipeline with HuggingFace **all-mpnet-base-v2** and the Gemini API for generation and ranking.

Mental Health Tracker | Python, FastAPI, SQLAlchemy, PostgreSQL, JWT, Google OAuth

- Exposed **23 versioned REST endpoints** across 5 resource areas via a FastAPI backend with layered architecture (routes, services, repositories, schemas).
- Achieved **74% code coverage** with 60+ automated tests; secured routes with JWT + Google OAuth and generated AI journal insights via Google GenAI API.

Basketball Stat Tracker | Python, Django REST, Next.js, React, PostgreSQL, Matplotlib

- Built a full-stack analytics platform (Django REST + Next.js/React) with a 7-entity schema exposing **30+ API routes**; renders Matplotlib shot-chart heatmaps in **~40 ms** persisted to Supabase PostgreSQL.

LEADERSHIP

CUBE Consulting

Champaign, IL

Director of Human Resources, Executive Board

May 2026 - Present

- Manage recruiting for **300+ applicants** to a technical consulting org, running application reviews, case workshops, interviews, and info sessions.
- Built an automated **Python** strike/accountability system and a member point-tracking system to monitor involvement across the organization.

SKILLS

Languages: Python, C++, C, Java, JavaScript, TypeScript, SQL, Swift, ASM

ML & AI: RAG, embeddings (all-mpnet-base-v2), MCP, Gemini API, Google GenAI, scikit-learn, NumPy, Pandas

Databases & Data: Neo4j, PostgreSQL, Supabase, Snowflake, MongoDB, Sigma, NetworkX

Frameworks & Tools: FastAPI, Django, React, Next.js, Node.js, AWS, Docker, Git, Jira, Confluence, Bitbucket, Agile/Scrum, Claude Code, Cursor, Agentic AI Tools
